PROFESSIONAL SUMMARY

Web Developer with 1+ year of professional experience building and maintaining 20+ responsive websites using WordPress, HTML5, CSS3, JavaScript, Bootstrap, PHP, and Elementor. Experienced in custom WordPress theme and child theme customization, WooCommerce development, ACF, custom plugin development, PHP template customization, AJAX functionality, and third-party API integration.

Hands-on experience building responsive layouts for desktop, tablet, and mobile, implementing client-specific functionality, troubleshooting issues, and performing cross-browser testing. Coordinates with team members and clients on requirements, revisions, and implementation updates throughout development.

Experienced in cPanel deployment and maintenance, including domain configuration, SSL setup, file management, and production release. Worked across healthcare, finance, e-commerce, hospitality, education, and staffing projects, delivering production-ready websites. Currently seeking Web Developer, WordPress Developer, or Junior Frontend Developer opportunities.

PROFESSIONAL EXPERIENCE

WEB DEVELOPER 2026 – Present
Kiluvai Tech Solution | Chennai, Tamil Nadu

- Developed and maintained **purplefabric.ai**, an enterprise AI platform website for financial institutions, using WordPress and Elementor.
- Customized the WordPress theme and built custom plugin functionality for project-specific requirements.
- Implemented **Advanced Custom Fields (ACF)** for editable content sections.
- Wrote custom **PHP and JavaScript** functionality and responsive CSS for desktop, tablet, and mobile.
- Resolved frontend, responsive, and WordPress issues with the team.

WEB DEVELOPER 2025 – 2026
Pragmatic Solution Inc | Coimbatore, Tamil Nadu

- Built and deployed **19+ WordPress websites** for clients in healthcare, finance, e-commerce, hospitality, education, and staffing.
- Customized themes and child themes with PHP templates, HTML, CSS, and JavaScript; built responsive layouts with Elementor and Bootstrap.
- Developed **WooCommerce** stores with product catalogue, payment gateway setup, and checkout customization.
- Integrated third-party APIs for live data (gas prices) and built **AJAX search** for content discovery.
- Deployed via **cPanel**: domain setup, SSL, files, and production release.
- Handled client requirements, revisions, and cross-browser testing.
